

Spring

Spring is like a garden full of flowers,

The whole ground dresses up with rich colors,

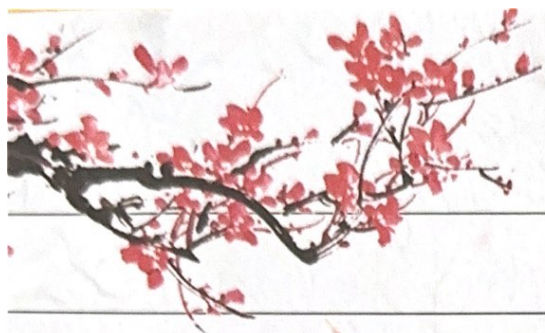

Kill time in the flower sea,

The blue sky you can see,

Taking photos of family,

The days are so lovely.

summer

Those busy memories of summer days.

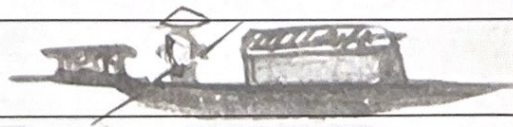

Are about go for a trip with friends.

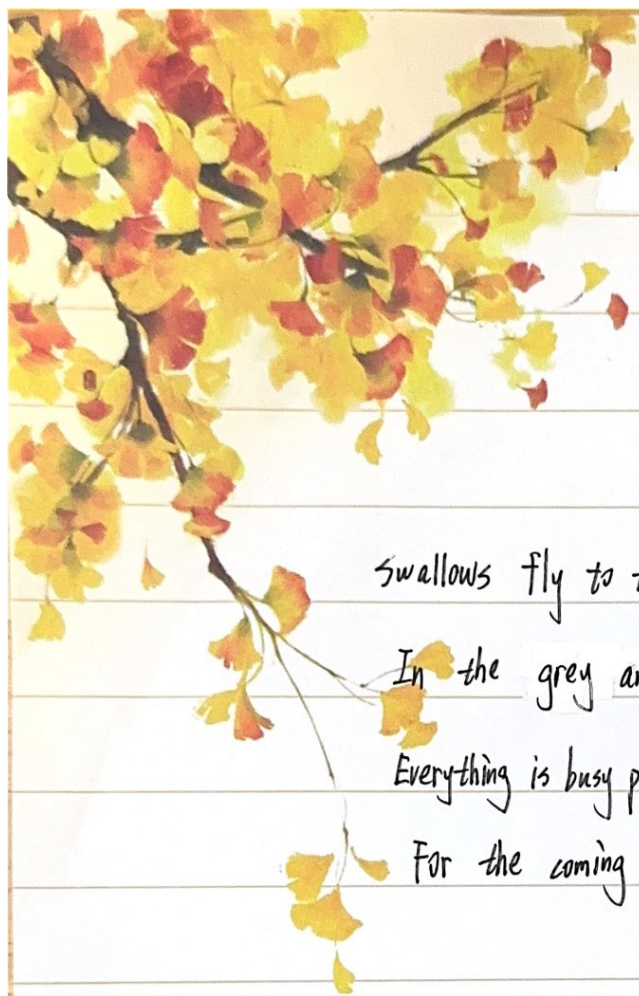

We climb trees to watch beautiful views.

And put hands in the water too feel cool.

Live in a hotel with a swimming pool.

陈静华

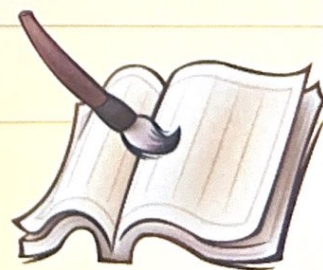

swallows fly to the south high,

In the grey and cool sky.

Everything is busy preparing a long rest,

For the coming winter at last.

Winter

Pure white snow covers every corner of the land

Only some foot prints leave behind

The dead yellow leaves turn into dirt

Provide nutrition for spring

Winter is like fallen people

Get your second wind!

Win a perfect world!
