Spring

Spring is energy and liveliness.

The whole ground dresses up with different colours.

The days are warm and bright.

What a happy time to fly a kite!

Those innocent memories of summer day,

Are about quiet streams and sweet paddy flowers.

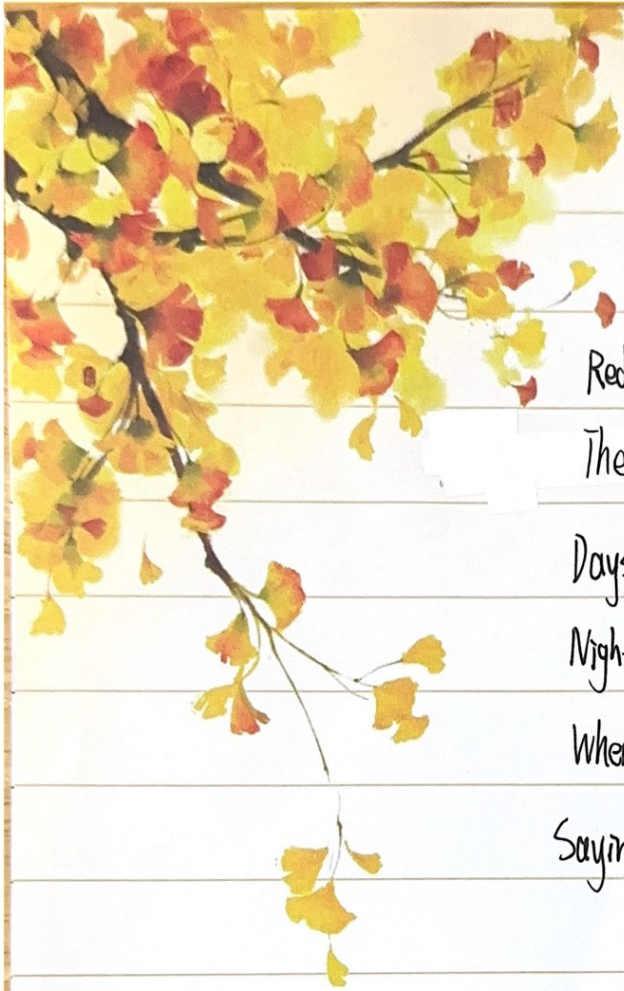

Kill the time in the sun,

Listen to the music to have fun.

In summer I will feel happy,

I think it can let me lucky.

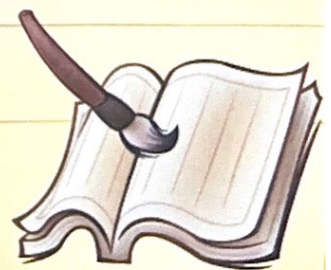

Autumn

Leaves rustle low,
Red, yellow, gold, and brown they show.
The sky still clear,
Days grow shorter,
Nights go near,
When the trees sway.
Saying goodbye to summer's day.

Winter

White covers the ground,

No sign of people around.

Snow is a symbol of winter.

It will be spotless and pure forever.

Winter is so long that it has more than twelve weeks.

But if winter comes, can spring be far away?
