

Spring

Spring dresses up with rich colors .

The whole ground is covered with plants

Everything is waking up

What a lovely time to go for a trip .

Summer

Those spicy memories of summer days,

Are about enjoying a breeze on the bays.

When we eat the hot pot.

Feel passion a lot.

Kill time in the sun.

Playing in the water to have fun.

Autumn

The leaves in autumn turn brown

Fall into piles upon the ground

As the temperature drops

Farmers^{are} busy harvesting crops

Winter

The winter is full of silence,

Maybe the pure snow absorb all the sounds.

The dead of winter lock people in homes,

Everything is buried in the snow.
